

SUBURBAN LINES

On 19 May 2019, South Western Railway will be introducing changes to its timetable, adding over 300 train services per week across the network.

Many of these service enhancements are based on consultations that were undertaken with stakeholders. We are very pleased to see these improvements come to fruition.

The highlights for the suburban lines are:

- New late-night services will be provided for passengers travelling to and from Chessington South
- An additional late-night service has been provided between Guildford and Woking
- Passengers travelling between Hounslow via Brentford to Waterloo will benefit from two new morning and one evening peak time services with faster journey times
- The Reading to Waterloo line will see two additional trains during the morning peak and one additional train during the evening peak, providing additional services to Waterloo via Richmond

The detailed changes to the suburban lines below have been grouped as follows:

- Additional or new trains,
- Retimed early evening services to make better use of the network and
- Adjustments to calling patterns and performance improvements
